

Westbury-on-Trym C of E Academy, Channels Hill, Bristol

The phased refurbishment works for Westbury-on-Trym Primary School were completed in July 2014, following a 10 month programme.

Initial works included the demolition of the existing internal corridor, which was rebuilt, together with remodelling and improvement works, drainage and services.

This was a challenging job as the school was occupied throughout and access was restricted.

The completed works have been well received by the Academy, who posted the following comments about Pollards' involvement, on their website:-

"Pollard builders have been incredibly sensitive and respectful of the fact that this is a school site and we were delighted to hear when an HSE inspector "dropped" in a few weeks ago that we were given a clean bill of health."

"Pollard have worked continually, sometimes all night, weekends and even over the Christmas Break, including Christmas Day to get the building ready on time."

Value: £1.5m
