

Yeovil College, Kingston Building

This phased works to redevelop the Kingston building on Yeovil College campus was designed to create a modern dedicated academy for A-Level students, enabling them to learn and study in one designated building.

The academy features specialist academic study areas for supported and self-directed learning, new social areas and high-quality, professional teaching and learning spaces.

Works include removal of existing partitions, redecoration, new floor and ceiling finishes, upgrading the lighting and power provision to provide new open plan accommodation with quiet study areas, learning zones and a social, learning centre.

Centre for Independent Living, Yeovil College,

The Centre for Independent Living is a two storey extension to an existing building on the college campus which has been specifically designed to extend and improve existing resources for students with additional and specialist learning needs.

The innovative two storey centre includes a new kitchen/living area, a training bedroom and a bathroom to enable students to develop the personal skills to live independently and employability skills potentially too. All training equipment is height adjustable and fully accessible for wheelchair users and students with reduced mobility.
