

**Westcott House Boarding
Accommodation, Sherborne**

Undertaken for Sherborne School's International College, this project comprised the construction of a new three story building in traditional construction to provide eleven two-bed study rooms, together with house mistress accommodation, common room, music room, study room, office, laundry and associated external works.

Constructed adjacent to occupied school buildings, close liaison was required with the school to minimise disruption and to ensure there were no issues in relation to health and safety.
