

## Abbey Court, Firepool Lock, Taunton

The project comprised the design, construction and commissioning of 19 apartments and 5 new town houses on Firepool Area F.

The apartments comprise a 4 storey building, built in a traditional masonry construction, concrete floor planks, with a primarily rendered external finish.

The scheme provides a positive contribution to the townscape and seeks to continue the street scene along the wider Firepool Lock development. This scheme provides:

- Three 3 Bed Houses
- Two 2 Bed Houses
- Six 1 Bed Apartments
- Thirteen 2 Bed Apartments

Abbey Court has automated gates to the estate and a concealed bin storage area is provided. There is car, motorbike and cycle parking provided within the shared amenity space. The 5 houses have enclosed gardens with sheds provided and there are external terraces and grounds for the apartment occupiers.

**Client:** Knightstone  
Housing Association  
Ltd (now Livewest)

**Value:** £2.5m

**Completed:** August 2018
