

Beckford Gate, Lansdown, Bath

Currently on site

Set within the sought-after Lansdown area of the city, with commanding views over Bath, the Beckford Gate development will create four stunning new residences, two large lateral apartments and two maisonettes, next to one of Bath's historic landmarks. Work will include essential repair of Beckford's Gate, making it safe and arranging long-term stewardship and managed access so the public can once again visit the landmark. While Beckford's Gate now stands within an urban setting, additional trees are planned to enhance the green backdrop, while preserving the appearance of the conservation area.

Client: Kersfield Developments
Value: £1.9m
Contract: JCT Design Build 2011
